# JAPANESE BEETLE TRAP

## EASY INSTRUCTIONS

Use with **Oak Stump Farms JAPANESE BEETLE LURE** or any other brand of Japanese Beetle Lure. Follow lure directions, precautionary statements and disposal instructions.

Assemble trap following instructions below. **USE GLOVES WHEN HANDLING LURE.** Activate lure by removing from plastic pouch. Remove and discard the lid. Attach lure to vane with twist tie. **HANG TRAPS OUT OF REACH OF CHILDREN AND PETS.** Place traps about 30 feet downwind from foliage to intercept beetles. **DO NOT PLACE NEAR FOLIAGE.** Set traps out before daily temperatures exceed 70° F, and remove at the end of the season. Keep drain holes cleared and empty trap at least weekly or when full. Use at least one trap per 5,000 square feet.

**USE CAUTION WHEN EMPTYING TRAPS CONTAINING LIVE INSECTS.** Before emptying trap, fill with soapy water first to drown any live insects. To empty, unscrew and remove funnel. Rinse trap clean and reuse. Do not place in dishwasher. Use new lures every season.

**LOCK VANE INTO  
FUNNEL SLOT**

**LOCK IN  
SECOND VANE**

**SCREW FUNNEL  
ONTO BOTTLE**

**ATTACH JAPANESE  
BEETLE LURE**
